SOFWAVE SKIN LIFT & TIGHTENING

Sofwave™ is a new, clinically proven, non-invasive approach to rebuilding collagen. Sofwave™ is FDA cleared for lifting the eyebrow, submental tissue and neck, and for the reduction of fine lines and wrinkles.

The unique, Synchronous Ultrasound Parallel Beam Technology SUPERB™ generates heat at the right depth of 1.5mm in the mid-dermis. Additionally, there is an integrated cooling SofCool™ mechanism that protects the uppermost skin layer from burning. The impacted treatment zones stimulate a healing response, called neocollagenesis, which increases and regenerates the collagen in the skin, leading to the reduction in fine lines and wrinkles.
